**Career Objectives:** Seeking a challenging position at a dynamic IT organization where I can leverage my skills in web development to drive innovation and contribute to the company's success. I am eager to enhance my expertise, take on new challenges, and continuously learn while delivering high-quality solutions.

## Experience:

**Working as a Frontend Developer at**

**Softvence Agency** (November 25, 2024 – Present)

My responsibilities included building and maintaining web applications using **React.js**, **Next.js**, and **TypeScript**. This role allowed me to enhance my frontend development skills collaborating closely with the **backend** team to deliver seamless user experiences.

## Projects Made:

**DukeAuto Repair:** This Project was developed using **React.js** and **CSS**, integrating **RESTful APIs**.

<https://duke-auto-repair.netlify.app/>

**Nexus:** Nexus is an e-commerce platform where users can post products and purchase them either through bidding or regular buying. It also includes a dashboard feature for managing and maintaining chats, built using **React.js** and **Laravel**.

<https://nexus-123.netlify.app/>

**Blog Project:** I developed a blog project using the **MERN** stack, where users can read, like, and comment on posts. The project includes a robust authentication system, allowing admins to control user roles and manage content efficiently.
