Career Objectives: Motivated Developer with 2 years of experience in creating responsive and user-friendly web application. Seeking a challenging role in a dynamic IT company where I can apply my skills, learn new technologies, and contribute to building high-quality digital solutions..

Experience:

Softvance Agency (November 2024 – Present)

Built and maintained responsive web applications using React.js, Next.js, and TypeScript while collaborating with backend teams to deliver seamless user experiences.

Quilcraft (December 2023, November 2024)

Redesigned Figma prototypes into responsive web applications using React.js, Next.js, and TypeScript, collaborating remotely to ensure seamless user experiences.

Projects Made:

Lob File: Developed a file upload platform using React.js and integrated with RESTful APIs for seamless backend communication. Users can upload, view and manage files.

<https://lobfile.com/>

AnnaNewa: is a full-stack web application built using Next.js, TypeScript, Node.js, and MongoDB. It connects farmers directly with customers through a seamless digital platform.

<https://ananewa.vercel.app/>

AccFarm: Developed an online marketplace where users can buy and sell accounts with manual and automated systems, using React.js for the frontend and Laravel with SQL for the backend.
